	Yes	No
Do you or have you had a history of migraine headaches?	☐	☒
Do you or have you had a history of claustrophobia?	☐	☒
Do you or have you had a history of frequent or severe motion sickness?	☐	☒
Do you or have you had a history of any health problems (e.g., seizures, diabetes, heart problems, vertigo) that affect your ability to drive?	☐	☒
If you are a female, are you or is there a possibility that you might be pregnant?	☐	☒

Demographics

- | | |
|--|--|
| 1. What is your race/ethnicity? | ☒ White / Caucasian |
| 2. What is your gender? | ☒ Male |
| 3. How old are you? | 37 |
| 4. What is the highest level of education you have completed? | ☒ High school graduate of GED |
| 5. Which option best describes your current home? | ☒ I have no permanent residence. |
| 6. How do you pay for healthcare? | ☒ Self-pay, out of pocket |
| 8. Which best corresponds to your current work situation? | ☒ Not working or looking for work. |
| 9. What is your combined family income for the past 12 months (from all sources) | ☒ Less than \$5,000 |

Exit Interview

1. Which option describes your current home?	☒ It is owned or being bought by you or someone in household
2. How do you pay for healthcare?	☒ Self-pay, out of pocket
3. Which best corresponds to your current work situation?	☒ Not working or looking for work.
1. You experienced Cognitive Behavioral Therapy and Heart Rate Variance interventions in virtual, augmented, and mixed realities. How would you describe your experiences with each of those headsets?	felt that MR and VR were easy to use and navigate, realistic, and comfortable. enjoyed AR the most and noted that it was the most comfortable and easiest on the eyes and easiest to navigate and use.
2. Do you think these types of technologies have a place in OUD treatment and management? If YES, how? If NO, why not?	yes - especially the breathing technique. feels that the interventions with these technologies should mimic the same format as the study's and believes that the breathing exercises in all technologies would be the most beneficial.
3. How would you describe the iPAL application, in terms of a cravings management tool?	believes the app was easy to use and is a great cravings management tool. asked the right questions and generated appropriate interventions. does not believe questionnaire was too long or too short.
4. How would you describe the interventions (CBT, HRV)? Were the interventions appropriate for the intensity level and triggers you reported?	CBT - enjoyed them and found them soothing and relatable. does not believe that they were too long or too short. enjoyed HRV and worked well for patient personally, did not find them too long or too short. felt that both HRV and CBT interventions were appropriate for intensity level reported.
5. Do you think the iPAL app, or similar digital interventions delivered via phone should be integrated into OUD treatment plans? If YES, how and in what capacity or role? if NO, why not?	yes - believes that it would be good for patients to have this treatment intervention through their phones that they could access, especially in situations of crisis and feels that it would also be great if the app could be linked to other devices (computer, tablet, watch, etc)
6. If iPAL or a similar app was available, would you download the app and incorporate it into your OUD treatment and management plan?	yes - could envision self utilizing 3x/week
